Cost savings momentum

During H1 2017, NCL has effectively shifted most of its regional resources from Singapore to Malaysia as part of a centralisation exercise to reduce expenditure. NCL has also devised and executed more cost-effective marketing strategies to further reduce overhead expenditure.

Scaling down loss-making business entities is underway

During H2 2017, the following actions are in progress with the objective of streamlining the Group's offerings:

- Disposing of interests in AroiMakMak Pte Ltd and Ripplewerkz Pte Ltd;
- Downsizing the Nuffnang Singapore team;
- Mothballing Churp Churp Pte Ltd, Nom Nom Media Pte Ltd and FTW Tech Pte Ltd in Singapore;
- Striking off Sashimi SG Pte Ltd & ReelityTV Pte Ltd in Singapore; and
- Discontinuing operations in China and Hong Kong after seeing through all on-going projects.

In addition to staff savings, overall group operational requirements are being reduced. The objective is an immediate reduction in monthly operating expenses of approximately 50%.

Emphasis on profitable business entities

NCL has renewed its focus on profitable business entities (such as Sashimi, ReelityTV Malaysia, and Nuffnang Taiwan) and growth markets (such as Australia and Indonesia), and is currently integrating the recently acquired performance marketing agency, Plata and Punta.

Mr Desmond Kiu, CEO comment

"We believe we have the right strategies in place. Our immediate focus continues to be on reducing operating losses as the new management team implements a profitable business model. I am pleased to see that the overall loss for H1 2017 has reduced significantly from the prior corresponding period. The board is confident that we have more than adequate cash reserves to allow management to successfully complete Operation Turnaround."
